

MS3510

Infant & Toddler Scale C€0122

The lightweight and portable MS3510 Wireless Infant & Toddler Scale is OIML certified, enjoying excellent precision and premium-grade features to streamline the weighing process. The curved weighing tray improves measurement safety, and can be removed to measure toddlers as well! Backlit display allows for reading of results even in dim settings, and other practical quality-of-life features like Milk Intake and Hold all make life easier for practitioners.
