PC Software Driver Installation Instructions

If your Windows PC is unable to identify the DP3710's USB drivers, please follow the instructions below to download the proper drivers to your computer.

1. Ensure your PC's USB port is at least USB 2.0
2. Follow the link below:

<https://www.ftdichip.com/Drivers/VCP.htm>

3. Download and install the correct driver for your PC's operating system.
